Outperform with the Marshal BlackDiamond carbon fork.

Are you looking for a fork that combines performance, safety, and lightness? Look no further, the BlackDiamond is for you. Thanks to its NF EN16054 certification, you can ride with complete peace of mind while benefiting from an aerodynamic advantage.

Benefits of the BlackDiamond:

- Safety: NF EN16054 certified.
- Performance: Optimized aerodynamics, exceptional stiffness.
- Lightness: Toray UD carbon.
- Versatility: Compatible with both 20mm and 10mm axles.

Why is the NF EN16054 certification important?

- Safety: The NF EN16054 certification ensures that the fork meets the highest safety standards, reducing the risk of accidents.
- Reliability: An NF EN16054 certified fork is more reliable and durable.
- Regulatory Compliance: This certification ensures that the fork complies with current regulations.
- Insurance: Some insurance companies require certification to cover bicycles.

CARACTERISTICS

- Monocoque T800 & T700 carbon fork
- Tapered steerer tube: 1-1/8″ top, 1.5″ bottom
- Steerer with 7005 aluminum reinforcement sleeve, 80mm long
- 20mm dropout with 7075 aluminum flange (10mm adapter included)
- Aluminum sleeve for M18 x 1.5mm steerer bolt
- Steerer height: 180mm
- Offset: 30mm
- Weight: 525 gr (1.157 livres)
