

LEGION EMPEROR Carbon Rims: Uncompromising Excellence! □

Push the limits of performance with LEGION EMPEROR rims, designed for riders who refuse to compromise. Crafted from high-quality Toray T700 carbon fiber, these rims offer the perfect balance between extreme rigidity and record-breaking lightness.

Why choose the Emperor Carbon?

- **Ultra-lightweight:** At only 275g per rim (550g per pair), enjoy unparalleled responsiveness and explosive acceleration from your very first pedal stroke.
- **Aerodynamics & Rigidity:** The 30mm profile depth is engineered to slice through the air while maintaining surgical steering precision.
- **Toray T700 Quality:** Built with world-renowned carbon fiber for a reliable, durable structure capable of withstanding the highest racing stresses.
- **Stealth Design:** An elegant matte black finish that brings a professional, high-end look to your custom build.
